Sheet No.88

Career of the Day Thursday

Economist

Date 10/02/2022

Introduction

Economists study and analyze the ways people, nations and businesses use scarce resources, such as land, labour, raw materials, and money to produce goods and services. They study and analyze the ways as well as the costs and benefits of distributing and consuming these goods and services. Economists carry out research, collect and analyze data, monitor economic, business and political trends and develop forecasts for future situations. Their work helps nations to shape up policies to benefit people, help businesses to make crucial decisions; help investors to decide where to invest and so on. (Punjab Career Portal)
