Sheet No.106

Career of the Day Thursday

Cost and Management Planner

Date 03/03/2022

What is it really?

Cost and Management Accountant is a specialist who is responsible for computing business expenses. As a cost and management accountant, your role will be to compute and control the total expenses as per budget. This will ensure that the organization uses the money judiciously and does not go into losses. You will be responsible for the accounting of all the money that is spent. You will keep a record of money that goes into salary, into management into marketing, etc. You will help a business determine the cost of projects, products, processes, etc.
